

PARK DEMOCRACY IS ENTHUSIASTIC

Rally Addressed by Caine and Martineau Leaves No Doubt About Camp's Sentiments.

OTHER GOOD MEETINGS

DAVIS COUNTY RETURNS TO THE FOLD THIS YEAR.

(Special to The Herald.)
Park City, Oct. 21.—The first Democratic rally of the present campaign was held at the Dewey theatre here tonight, and proved to be a very enthusiastic one.

The main questions, both of state and national importance, were well discussed by Joseph E. Caine and Lyman R. Martineau of Salt Lake.

County Chairman J. P. Neely of Coalville called the meeting to order and introduced Frank Gingles of Coalville as chairman of the evening. Mr. Caine was the first speaker, and his remarks were confined principally to the present condition of affairs in Utah, and he discussed at some length the requirements of a state officer. He wound up by saying that if the Democratic nominees are elected the state officers will be well taken care of. Mr. Martineau, who was the next speaker, was representative in congress, was the next speaker, and he began by saying that he was on his way to Washington and thought that he would stop off for a few hours at Park City. At this point someone in the audience asked Mr. Martineau when he got to the capital city to bring an honest man back from Washington. Mr. Martineau replied: "I'll do it if I can. It may cost me lots of money, but I'll try to do it."

The speaker then told his listeners how the Republican leaders have been deceiving them for the past forty years, and told them that now is the time to put a stop to this kind of business. The gentleman spoke at some length on the bank guaranty plan and also on the tariff question. Mr. Martineau closed his speech by saying that he felt quite sure that the people of Utah would come to the support of that great western champion, William Jennings Bryan, on election day.

Much was furnished by the Park City Military band and by the Democratic Glee club, which was made up of the Fafek sisters and Miss Webb.

Another rally will be held next week, at which time Jesse William Knight and Judge W. H. King will be the speakers.

UNIVERSITY BRYAN CLUB.

Students Get Into Line for the Next President.

The University Bryan club was formally organized at the University of Utah Tuesday, being the first political club to be organized. The meeting was well attended and filled with the spirit of enthusiasm. Richard W. Young, Jr., was elected chairman and F. H. Houtz secretary. The club was organized for the purpose of aiding in the election of William J. Bryan as president and John W. Kern as vice president of the United States. The club members are strong this year and expect to swing the vote of the university into a big Democratic majority. All present were given a Bryan badge and many hundreds of the Bryan stickers were distributed. Another meeting will be held in a couple of days to arrange a whittling campaign. Meetings will be arranged by which the candidates can be taken to the students, by the students, to carry the fight into the other schools about the state, and some of the speakers will likely have in a few days. The notice of the meeting was published yesterday morning and at noon a few of the Republicans got together and decided to form a Taft club. A meeting was held, but was in sharp contrast of the rousing one held by the Democrats.

KNIGHT AND KING SPEAK.

Answer Smoot's Wail at Levi and Elicit Cheers.

(Special to The Herald.)
Lehi, Oct. 21.—A most enthusiastic audience greeted Jesse William Knight and Judge William H. King, who spoke at the Opera house here tonight. Many people were turned away, being unable to get in the building, and the speakers were frequently interrupted by loud cheers. Both speakers paid special attention to the speeches of Senator Smoot and D. A. Rice, the latter of whom is a recent convert to the Republican cause who recently spoke here, and thoroughly answered the arguments of both the Republican speakers. The Bryan-Knight quartet of Provo furnished the music for the meeting.

DAVIS IN LINE.

Chairman Muir Says the Democracy Will Carry the County.

L. J. Muir, Democratic county chairman of Davis county, spoke at the Opera house here tonight. He said that the outlook for Democratic success in Davis county is excellent. He said that the party is confident that the entire ticket will be elected, since the candidates by large majorities while the average majority will be ample.

SPEAKERS TO BE BUSY.

POLICE COURT GLIMPSES

The bugaboo of disrupted relations between the United States and Japan has been handed another solar plexus blow. From cable dispatches during the past few days it is learned that the American sailors "own the town" in Tokyo and Yokohama, and that all trouble with the sailors was over. The Japanese government is avoided through the diplomatic and courteous care taken by the police. The sailors are being thoroughly appreciated and reciprocated, was evidenced in Judge Diehl's court yesterday when two of the little brown men, S. Honda and G. Makano, were up before the court. Probably the first of the American fleet to visit Japan, Honda and Makano not only shouted "banzai," but also evinced their pleasure by drinking to the health of the fleet. The mistake they made was that they attempted to drink to the health of not only the officers but each of the men in turn. In view of the reciprocal relations between the two nations, the consideration that is being granted to the sailors in Japan and were discharged.

The day in which the wily "phony" jewelry artist may ply his trade with impunity in Salt Lake City, at least if the efforts of the police, prosecutor Rogers and Judge Diehl court for anything. Another member of the sleek, smooth, brotherhood whose tenet is to catch the unwary, was made an object-lesson in the municipal court yesterday when he was given a \$15 fine, in default of which he will serve fifteen days in the city jail.

The man who gave his name as Frank Daly was caught with all the tricks of him. When arrested he was attempting to sell a phony ring and had several others in his possession. At his secretary, today, like the rest of his craft who are well versed in the methods of their precarious livelihood, he had a ready plea of guilt to the charge of selling the license ordinance, and was equally ready during the past few days that has fallen at this time of the year in many years. It has been impossible to find employment, but being unable to find employment, went home during the night and tried to dig potatoes, thousands of bushels still remaining in the ground. The gathering of the apple crop has been hampered and all are anxiously awaiting the return of fair weather.

Dr. Hyatt is trying hard to bring the smile back to the faces of Salt Lake and afternoon. The sun fought its way down behind the clouds and gradually brightened for a few hours. Today the weather man promises fair weather, with rising temperature.

The storm which has played havoc with this section of the country, has moved its base of operations eastward, and is causing snow and rain through the central states. The weather conditions east of the Mississippi continue fair and dry. The barometer here is gradually rising, indicating fair and warmer weather. There has fallen in the last four days between four and five inches of snow, which is most unusual for this season of the year.

TAKE \$35 FROM THE TILL

J. G. Read & Bros. Store Entered by Robbers and Money Stolen From Cash Drawer.

Thieves entered the establishment of J. G. Read & Bros. on Twenty-fourth street some time early yesterday morning and robbed the cash register of about \$35 in cash and several hundred dollars' worth of city warrants. Nothing in the big stock of harness, saddles, etc., was disturbed. The police are of the opinion that the work was done by some one familiar with the premises, as there are two or three watch dogs kept in the place and it would be impossible for any stranger to have entered the place without having aroused the dogs and thereby giving the alarm. The thieves tried to get into a cash till in the place, but not knowing the combination declined to break the box. It is believed that the city warrants may lead to the arrest of the culprits.

The gathering of the apple crop has been hampered and all are anxiously awaiting the return of fair weather.

The old fable of the man who took the snake to his bosom, only to be bitten by it in return for his kindness, was enacted in reality in Salt Lake Tuesday night, according to report made to the police yesterday morning by J. S. Lewis.

It appears that late Tuesday night Lewis was accosted by a stranger, whose face gave the color of truth to the story. Out of sympathy Lewis offered to share his room at the Continental rooming house with the stranger, and the offer was promptly accepted.

Upon entering the room, however, the stranger suddenly attacked Lewis, striking him senseless. When Lewis regained consciousness he found that he had been robbed of his clothes, the thief who had befriended having stripped him while he lay unconscious.

The name of the intruder is not known and Lewis was only able to give a general description of the man.
